ABOUT

Web developer proficient in HTML5, CSS, Javascript, and ReactJS. I have in-depth knowledge about landing pages and portfolio websites, and experience with e-commerce and social media websites. I am proficient in responsive designs, testing and debugging, front-end and back-end basics, and search engine optimization. I have analytical skills, interpersonal skills and creative problem solving skills, along with exceptional time management abilities. I am currently completing a fullstack web development course in Newton School. I am eager to improve my skills and can easily adapt to new environments and become proficient in diverse web technologies.
